I am Yoseph Kewena Hayon, an Informatics Engineering student at Universitas Pamulang with a strong focus on Full-Stack Web Development. Proficient in building responsive UI/UX and frontend architectures using HTML5, CSS3, JavaScript, and Bootstrap, coupled with robust backend and database development using PHP, Laravel, and SQL. Demonstrated experience in developing end-to-end web applications, including booking and reservation systems for automotive repair shops and restaurants, complete with integrated admin dashboards. A disciplined, responsible, and continuous learner dedicated to providing effective technical solutions in a professional work environment.

EDUCATION

Universitas Pamulang

Faculty of Ilmu Komputer

Pamulang, Indonesia

September 2023 - present

- GPA 3.54/4.00 - Field: Computer Science
- Relevant Coursework: Web Programming, Database Management Systems, Object-Oriented Programming (OOP), Software Engineering, UI/UX Design, Data Structures and Algorithms.

PROJECTS & PORTFOLIO

Automotive Repair Shop Booking System

October 2025

Developed a full-stack web application to facilitate online service reservations for customers. Here is my job description:

- Built a responsive and interactive user interface (UI/UX) using HTML5, CSS3, JavaScript, and Bootstrap.
- Developed robust backend architecture using PHP and the Laravel framework to handle server-side logic.
- Designed and managed the SQL database to securely store customer data and reservation schedules.
- Implemented a comprehensive admin dashboard to manage bookings, optimize service queues, and oversee daily operations.

Restaurant Ordering and Reservation System

March 2026

Designed and developed an end-to-end web platform for restaurant reservations and food ordering. Here is my job description:

- Engineered the frontend architecture utilizing HTML5, CSS3, and Bootstrap to ensure a seamless cross-device user experience.
- Developed the backend infrastructure with PHP (Laravel) and SQL to process online orders and manage table availability.
- Integrated an interactive admin dashboard to facilitate menu management, monitor incoming orders, and track real-time reservation statuses.

CERTIFICATIONS

Java Intermediate & Introduction to Java

November 2025

Completed a 60-hour course focusing on Python fundamentals, object-oriented programming (OOP), and popular Python libraries via Dicoding.

SKILLS & INTERESTS

Technical Skills: HTML5, CSS3, JavaScript, Bootstrap, PHP, Laravel, SQL.

Soft Skills: Continuous Learning, Discipline, Responsibility, Problem Solving, Teamwork, Time Management.

Interests: Full-Stack Web Development, Software Engineering, Artificial Intelligence, Machine Learning.

LANGUAGES

Indonesian: Native Speaker
